

Terra Firma Pellets

Premium grade pelletised poultry manure
Boosted with Natural Humates

N	P	K
4	1.8	2

For a better soil with all these benefits:

- ✓ Pelletised for slow, consistent release of nutrients
- ✓ Activates vital micro-organisms & earth worms in your soil for better soil structure
- ✓ BFA Registered by the Biological Farmers Australia (BFA)
- ✓ 30% Organic Carbon as a biological storehouse for nutrients
- ✓ Boosts soil moisture retention & improves aeration of the soil
- ✓ Convenient and safe to use
– with one of the highest NPK analysis on the market

Terra Firma Pellets

Nutrient Analysis		
Nitrogen (N)	4.0%	Plus minerals & trace elements Magnesium, Iron, Zinc, Copper & Manganese.
Phosphorus (P)	1.8%	
Potassium (K)	2.0%	
Sulphur (S)	0.5%	
Calcium (Ca)	3.2%	

Terra Firma Pellets **BFA Registered**

Why use Terra Firma?	Unlike raw manure, Terra Firma Pellets have a guaranteed analysis, will not burn plants, is easy to spread and store, is easy to transport and has no weed seeds or pathogens.
APPLICATION RATES	
Home Garden	150 – 300g/square metre in the vegetable garden and around established shrubs. Suitable for use on natives at lower rates particularly near plants of the Proteacea Family.
COMMERCIAL RATES	
Commercial Vegetables and Vine Fruit Production	500 – 2500kg/Ha as a pre-plant application depending on the type and quantity of other soil inputs.
Tree Crops	250 – 500kg/Ha depending on age of trees. Apply under trees with more around the drip line if possible generally in Spring and or Autumn.
Broadacre crops	From 75kg/Ha in the furrow with the seed as a biological activator
Pasture	200 – 250kg/Ha after grazing in Winter. Over Winter the pellets will incorporate in the top soil and help initiate greater biological activity in growth in Spring.
